Jane Henney, Commissioner
Food and Drug Administrator
Docket # **ooP-1211/CP1**
5630 Fishers Ln. Room 1061 Rockville, MD.
Dear Ms. Henney:

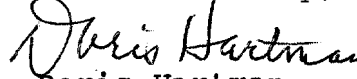

I am concerned about the fact that there is no comprehensive government regulation of genetically-engineered foods. I would like to urge you to require that :

(1) No new genetically -engineered foods or products with GE ingredients be released until the Food and Drug Administration requires long-term safety testing of all GE foods before they go to market.

(2) All GE foods presently on the market be labeled, giving consumers the right to know what's in the food they are eating.

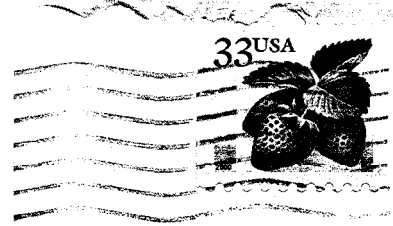

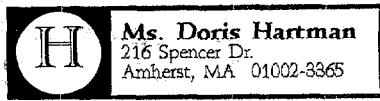

I am sending **a copy** of this letter to my representative in Congress in the hope that he will sponsor comprehensive regulation of GE foods in the next Congress.

Yours sincerely,

Doris Hartman
